

SANDWICH PANEL BALSA

Sandwich panel Balsa

SANDWICH PANEL BALSA is a super light sandwich panel with a structure of a Balsa core and waterproof bonded marine plywood on each side. The plywood as well as the Balsa can vary in thickness and weight.

SANDWICH PANELS BALSA have excellent construction properties, strength and stiffness to weight ratio, good sound and thermal insulation.

The panels are made in standard sizes as well as special structures.

Also possible with other plywood on each side.

Our SANDWICH PANELS BALSA are used in motor- and sailing yachts and furniture.

Structure Balsa:

Core 150 - 200 KG/m³
